NOTES:

Devices can be filtered
furthermore with options
for a given category (e.g for the category smartphones
we can apply a price filter or a brand filter). This is
implemented via a filter panel to be put in the page
relative to the introductory act "All devices of category x"

In each page of the website a site map is put. This site
map is a collection of links relative to the different topics
of the website(Devices, SL services, Assistance services,
Who we are, The group)
